

SPECIFICATION SHEET

Steel Free Standing Litter Bin - 120 Litre

TECHNICAL DETAILS

Manufactured from:

- 2mm Zintec, BS EN 10152: 1994 DC+ZE25 / 25-AC
- 5mm Hot rolled mild steel BS 970: 080A15
- 5mm Stainless Steel, EN10088-2/05; WNR1.4307/1.4301
- 1mm Galvanized Mild Steel, ZE 275

Pre-treatment:

- 3 stage degreasing process incorporating an iron phosphate coating and a non chrome final rinse enhancing the anti-corrosive properties of the metal and ensuring a high quality bonding of paint to metal.

Paint Finish:

- Polyester powder finish to customer specification.

FEATURES - STANDARD

- Gold backed 'LITTER' punched beneath apertures.
- Gold vinyl trim and vinyl Tidyman.
- Three stainless steel pivot hinges, pivoted on a 20mm S/S rod.
- Four apertures large enough to accommodate fast food waste including pizza boxes and burger cartons.
- Angled 'litter chutes' for the free flow of litter into the liner.
- Litter chutes allow for retro fit of aperture adaption plates, enabling the collection of recyclables, fitting of litter flaps or security plates to seal the bin.
- 1 x 120 Litre galvanised liner.
- The liner benefits from having an elastic bungee cord for securing the rubbish sack, two external handles and drainage holes.
- Spring loaded stainless steel latch mechanism complete with anti tamper plate.
- Full height and width door for easy removal/emptying of liner.
- 4 x 15mm fixing holes in base and additional drainage holes.
- Static liner guides assist easy liner removal and repositioning.
- 10mm base.

FEATURES - OPTIONAL

- Ash & gum tray is hinged and locked from the top so ashtray can be emptied without placing hands inside the bin.
- Anti fly posting ripple paint for easy removal of posters and cleaning.
- Anti graffiti lacquer coating for easy removal of graffiti.
- Vinyl, screen printing and 'punched out' personalisation to customer specification.
- Rat baiting system for rodent control.
- Aluminium 'D' profile to enhance appearance.
- Floor studs raise the unit off the ground adding further rust protection in wet conditions.
- Retro-fittable litter flaps preventing unwanted rodent access.
- Retro-fittable security plates for complete closure.
- Retro-fittable recycling plates to control waste deposit.
- Pyramid top to discourage sitting on bin and enhancing appearance.

Height	1030mm
Depth	480mm
Width	480mm
Weight	45kg (approx)

Aperture size
300mm x 150mm

Liner Details
710mm x 380mm x 450mm
Capacity: 120 Litre
